Education

United Institute of Technology, Prayagraj

2023 – 2027

B.Tech in Computer Science & Engineering

CGPA: 7.52

Technical Skills

JavaScript & MERN Stack: JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB, REST APIs

Backend, Python & Tools: Python, Docker Concepts, GitHub, Version Control, AI-Assisted Development Tools

Testing & Performance: Test Cases, Debugging, Edge Cases, Performance Optimization

Core CS & System Design: Data Structures & Algorithms, System Design Principles, Technical Documentation

Experience

Web Developer Intern, Code Resite Pvt. Ltd.

Jun 2025 – Aug 2025

- Developed JavaScript-based software features, built REST APIs, and improved existing codebase components.
- Created test cases, identified bugs and edge cases, and integrated version control workflows using GitHub.

Artificial Intelligence Virtual Intern, IBM

Jun 2026 – Aug 2026

- Utilized AI tools effectively for development, debugging, testing, and technical documentation with strong engineering judgment.
- Optimized application performance and documented implementation workflows and technical decisions.

Projects

LearNova – Online Learning Platform

GitHub | Live Demo

JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs

- Engineered MERN stack applications, building new features, integrating REST APIs, and implementing system design principles.
- Conducted testing, handled edge cases, and managed version control and documentation via GitHub and Docker concepts.

Lumina Library Management System

GitHub | Live Demo

JavaScript, Node.js, Express.js, PostgreSQL, Postman

- Built backend services, created test cases using Postman, and debugged software issues to improve performance and security.

Fake-News-Detector

GitHub | Live Demo

Python, JavaScript, Streamlit, AI Tools

- Leveraged AI-assisted tools for research and development, writing clean code and documenting technical workflows.

Gesture Volume Control

GitHub

Python, JavaScript, GitHub

- Implemented utility scripts and managed structured code repositories using GitHub version control.

Achievements

- Winner, **E-BOX Top Coders 2025–26** coding competition, demonstrating strong software engineering and problem-solving skills.
- Achieved a **1625 LeetCode rating** and **2-Star CodeChef rating** with solid algorithmic foundations.
- Solved **200+** Data Structures and Algorithms problems across LeetCode and CodeChef.
- Shortlisted for the college presentation round of **Smart India Hackathon (SIH)** with a full-stack platform solution.

Additional

- Python with Data Science Training** – United Institute of Technology (Jun 2024 – Aug 2024)
- Full Stack Development Training** – Digital Heroes (Jul 2026)
- Intro to Modern AI Certification** – Cisco Networking Academy
- IEEE Member** – United Institute of Technology, Prayagraj
